Team Tovari BV

'Duurzaam? Ja natuurlijk!'

We leven in een wereld met beperkte middelen. Door leveranciers te selecteren die zorg dragen voor het milieu, kunnen we onze ecologische voetafdruk verkleinen. Op deze manier kunnen we onze impact verminderen door producten te leveren die functioneel, tijdloos en vooral duurzaam zijn. De circulaire economie is gebaseerd op de principes van het verminderen van afval en vervuiling, het in gebruik houden van producten en materialen en het regenereren van natuurlijke systemen. Het idee van de circulaire economie creëert geen afval. Er mag niets aan het einde van de levensduur zijn. Uiteraard streven we deze principes na door zorgvuldig na te denken over elke stap van het proces en door end-to-end verantwoordelijkheid te nemen voor onze producten.

Sustainable? Of course!

We live in a world with limited resources. By selecting suppliers who care for the environment, we can reduce our carbon footprint. This way we can reduce our impact by choosing products that are functional, timeless, and, foremost, durable. The circular economy is based on the principles of reducing waste and pollution, keeping products and materials in use, and regenerating natural systems. The idea of the circular economy is to create no waste. There should be no end of life of anything. Naturally, we pursue these principles by carefully considering every step of the process and taking end-to-end responsibility for our products.

Success Story

Anantara Grand Hotel Krasnapolsky

AMSTERDAM

Anantara Grand Hotel Krasnapolsky...

...is one of the city's most celebrated hotels, hosting royal celebrations, world conventions and welcoming distinguished travellers for over 150 years. It boasts the most sought-after location in the city centre, on Dam Square overlooking the Royal Palace, and a few minutes' walk from the central railway station, museum and shopping districts.

Enjoy picturesque dining at the Grand Café Krasnapolsky on Dam Square and Michelin-starred restaurant The White Room. Host regal events in the Wintergarten and private celebrations in the Summergarden, an oasis of tranquillity in the middle of the city. Hide away in the award-winning concept of tableware supplied by Tovari in 2022. For the banquet outlets the Hotel has chosen the amazing new collection Asteria from Steelite and

for the beautiful Grand Café a tailor made tableware concept has been developed by Figgjo Norway. The amazing golden rim made on the plates and the specially designed plates from the Tovari Brasserie Collection makes the concept complete.

For the fine dining Michelin restaurant "The White Room" the executive chef de cuisine has chosen several handmade products from the Royale factory in Italy in combination with specially designed plates from the Tovari Chefs Collection.

Success Story

Hotel 717

AMSTERDAM

Hotel 717

Overlooking the Prinsengracht canals, Hotel 717 is the first luxury boutique hotel of the Netherlands, delivering exquisite modern care in an atmosphere of historic delights. This monumental canal house has existed since the 17th Century, and welcomed guests as a hotel for the past 25 years.

The back house you'll find in the peaceful courtyard of Hotel 717 has existed since the 17th century. But our story begins when in 1810, a successful sugar merchant built the monumental canal house that welcomes you today, to celebrate his success with his fellow Amsterdammers.

In 2022 Mr. Jacob Jan Boerma, formal owner for the 3 michelin star restaurant De Leest ***, contacted us to visit the Hotel. Mr. Boerma who is the culinair advisor of the Hotel asked us to present a unique tableware concept for this luxury Hotel.

As a family company for 3 generations we have lots of experience as we presented the Hotel with an amazing William Edwards fine bone china set in combination with Italian cutlery from Broggi 1818 and fine crystal glassware from Rona. A mix of the Tovari Chefs collection provided the finishing touch for the presentation of the special dishes of the Chef.

Maham Studio
Spice

The Spice range designed and created in collaboration between Steelite and Maham explores the qualities of the unglazed outside and glazed inside, using a range of glaze effects, coloured and neutrals/semi-matte and mottled that fit into the current market. The range is based on colours or proportions on what the needs have been in the past couple of years.

Atlas

The world has been an incredible source of inspiration for the creation of this Atlas collection. It's durable porcelain tableware with clear references to natural elements such as blossoms, shell shapes, waves and other abstract structures that can be found in nature. Each element is characterised by a well-shaped rounded rim that creates a refreshing culinary perception. Atlas literally elevates the food that is served on it. The exceptional thing about Atlas is that no two items are precisely the same. The reactive glaze creates small imperfections that fit completely into the imperfect world it refers to.

Structo

Strong structures and stackable shapes form a solid base for Structo Brown. The straightforward robust design found its inspiration in the building and architecture industry. All products are made from durable porcelain based on a gray clay formula, which results in beautiful soft shades of brown. Every item is mass colored and finished with a reactive glaze, making each piece slightly different, with a unique color and speckle pattern.

Chef's Collection

Infinita

Infinita is a small collection of unusually shaped porcelain meant for sensitive and creative catering. Ideal for presenting premium, beautifully styled contemporary food concepts. Softly stretched surfaces, without visible edges, with no start or finish, characterise the formal statement the servers are making. The traditional division in porcelain tableware of edge and eating surface is completely done away with here. The charm of the objects stems from the contrast between the perfectly smooth and reflected surface, stretched over the inner core, and the exquisite dishes and sensitive foodstyling of an ambitious chef.

Vernissage

With three exceptionally pure and sensuous plate-like objects, Vernissage is not about classical plates but about outstanding porcelain presentation for creative and discerning gastronomy. Expectations of conventional plate shapes are completely thrown overboard. Combination of volume and unglazed porcelain flat surface as well as lightness and visual weight has created a decidedly unique object in gastronomy.

Essence

Simply beautiful, Essence is a stylish porcelain designed by Rene Ozorio. With a wide selection of rimmed presentation & banquet plates, coupes, trays and bowls, this collection provides a modern, yet classic look for your tabletop. To the designer, Essence means "the return to the basics, white porcelain and a shape that's pure". Its thin, elegant profile provides a trendy look while a body & glaze infusion creates a product that's durable and ideal for high volume banqueting.

Atelier

Give your food the frame it deserves with Atelier, an elegantly embossed collection of bright white porcelain designed by Rene Ozorio. Its free-form, crackled embossment trickles toward the center of plate, shifting the eyes of the guest toward the focus of the dish, the food. With a thin, elegant profile that chef's desire and proven tests for durability, Atelier works well in any venue from fine & casual dining to buffet & banqueting.

Azione

Our routine is marked every day by often repetitive gestures which define a ritual. Some gestures some actions break the routines arousing unique sensations. Azioni wants to provoke these unusual emotions, through the interaction between plate, object and gestures. The vision of the line can be exemplified in the items Azioni 1 whose idea come from the action of a child that after dinner "licks the plate" spontaneously. These actions instinctively bring us back to the childish dimension of the meal, highlighting its most playful aspect, arousing in the guests surprise and curiosity, pointing out the meaning behind these unexpected, spontaneous and witty gestures.

Diva

The Diva collection is the real hidden treasure of the Royale® production dedicated to the luxury section. As detached and fascinating as a star on stage, Diva has a brilliant texture, where the rough biscuit effect and the magnificence of crystalline join and enchant immediately. The items meet each other like the pearls of an identical necklace, offering Chef's extraordinary blank canvases from which to choose the most suitable for their personal inspiration. The shapes are delicate and light, but also confident and voluptuous; sweetness and passion, modesty and pride mingle with sinuous curves.

Jambon

At Cookplay we believe in porcelain as one of the most durable and precious materials on earth and because of its strength we can say it is probably the most sustainable material to produce our designs. We only use the highest quality of porcelain which is fired at 1300° C were it vitrifies and even without a glazed finish the material will have no pores, so it is easy to clean and stain proof.

Essentials

While cloches were originally designed to protect seedlings from the cold and frost, they now bring the art of food presentation to a new level of sophistication and elegance. Each cloche, designed from the bowls of RONA wine glasses, boasts brilliance and clarity, while enticing diners with delectable morsels worthy of such a display. Paired with the perfect plate or tray on their own or in sets, Cloches will create an unforgettable dining experience!

Bugia

The lamp Bugia draws inspiration from the old candle holders of the past. The line of the lamp, strongly characterised and with a retro style, the ring for the grip and the tiny lampshade containing the LEDs, at the top of the stem, make it an absolute one-of-a-kind object, with great aesthetic impact. A timeless object, renewed with a clear connotation of modernity, which adapts well to any environment. Besides being waterproof, rechargeable, wireless and easily transportable. What else?

Craft

Craft is inspired by hand-crafted, simple country wares made by generations of potters over hundreds of years. The range embodies the beauty of rich, lustrous glazes applied by hand, and celebrates chance effects and reactions which occur naturally in the kiln. The gem-like glazes married to simple forms and shapes produce an unique and individual appearance, giving Craft a rustic "joie de vivre."

Craft Apple

The Apple colourway is a bright, energetic and fresh hue which adds a distinctly contemporary tone to the Craft range. The growth of interest in vegan, plant-based and health-conscious menus provides an opportunity to showcase these menus differently. The Apple colourway promotes a feeling of wholesome well-being, amplifying the perceived beneficial effects of healthy eating.

Craft Blue

With a rustic, hand-crafted look and feel, the Craft range is an unique and individual collection that looks at home in all dining environments. The range embodies the beauty of rich, lustrous glazes applied by hand, and celebrates chance effects and reactions which occur in the kiln. Craft the original and arguably the best.

Craft Porcini

Craft is inspired by hand-crafted, simple country wares made by generations of potters over hundreds of years. The range embodies the beauty of rich, lustrous glazes applied by hand, and celebrates chance effects and reactions which occur naturally in the kiln. The gem-like glazes married to simple forms and shapes produce a unique and individual appearance, giving Craft a rustic "joie de vivre."

Urban Smoke

Urban appeals to a sharper, city aesthetic where food is still tied to the traditional values of honesty, integrity and authenticity, but requires a slightly more formal, more defined and refined presentation style. Emulating a concrete look, Smoke is a new collection of tableware that takes its inspiration from the aesthetics associated with the act of cooking. The subtle and nuanced tones of grey contrast with the darker reactive elements to mirror the effects of browning and searing, creating a connection between the food and the plate.

Aurora

An artisan approach is used in decorating each piece of Aurora by hand. This accentuates the individuality and craftsmanship required in its creation and gives each piece its personality. Two reactive glazes are used on each item, either to create contrast, or to achieve a more sophisticated tonal look. In either case, the effect is one of richness and vibrancy, enhancing the creativity associated with many cuisine types.

Revolution Bluestone

The Revolution range is a celebration of the art of artisan glazing. Using reactive glazes that change in colour and intensity depending on their application, the Revolution glazes are specially formulated to enhance all the nuances experienced in their execution. Applied by hand using a revolving motion, the path the brush travels across each piece is evident in the fired result.

Asteria

Asteria is an object lesson in minimalism. A pristine white surface allows Chef's creativity to shine unimpeded and the rimless profile maximises the plating area, allowing the elements of the dish to breathe. The deep black band constrains the presentation and draws attention to the plated food, adding focus and highlight.

Figgjo mix and match

You can mix decors and choose products from different series to create a personal expression for your project. Bright colours can truly liven up a restaurant table – it doesn't have to be all white, all the time. Brown, as shown below, is just one of the colour options that we always keep in stock.

Customised decor

We offer customised decor for any order of 48 pieces or more. This we do as a special service - we don't charge for the design work involved. Should the dinner plates come with a baby blue lip? Excellent. Would you prefer a light yellow rim for your cups? Wonderful, we can do that. It all depends on what the project asks for.

Our hand decorated collections are ready to be shipped out today. If you would like the same decor in a different colour, there are currently 60 food safe ceramic colours to choose from. dishes as well as salads

In collaboration with you, Figgjo wants to present tableware concepts that will give your guests the best possible dining experience. Here's a little bit about us and how we work:

First

We gather as much information as possible. Then we put together a moodboard with colors, design and decor ideas for the tableware. Customised decor is available from 48 pieces.

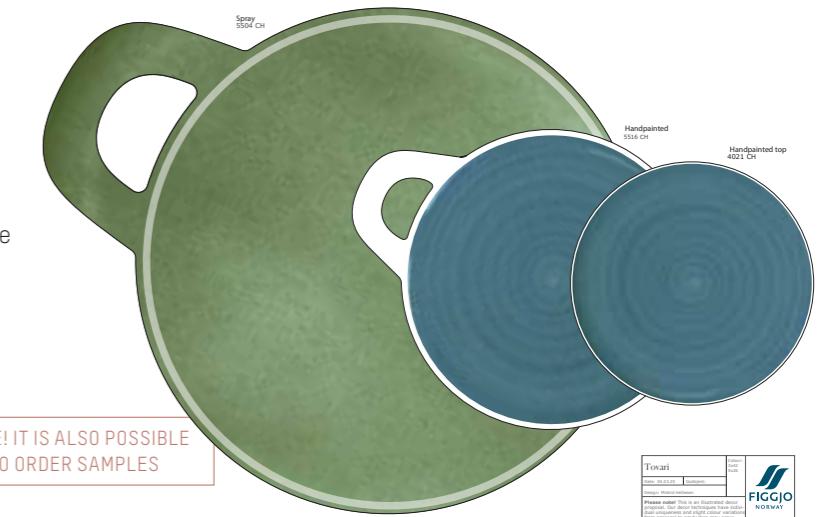

Second

We draft 1:1 drawings with suggestions on decor and products, often more than one suggestion if desired.

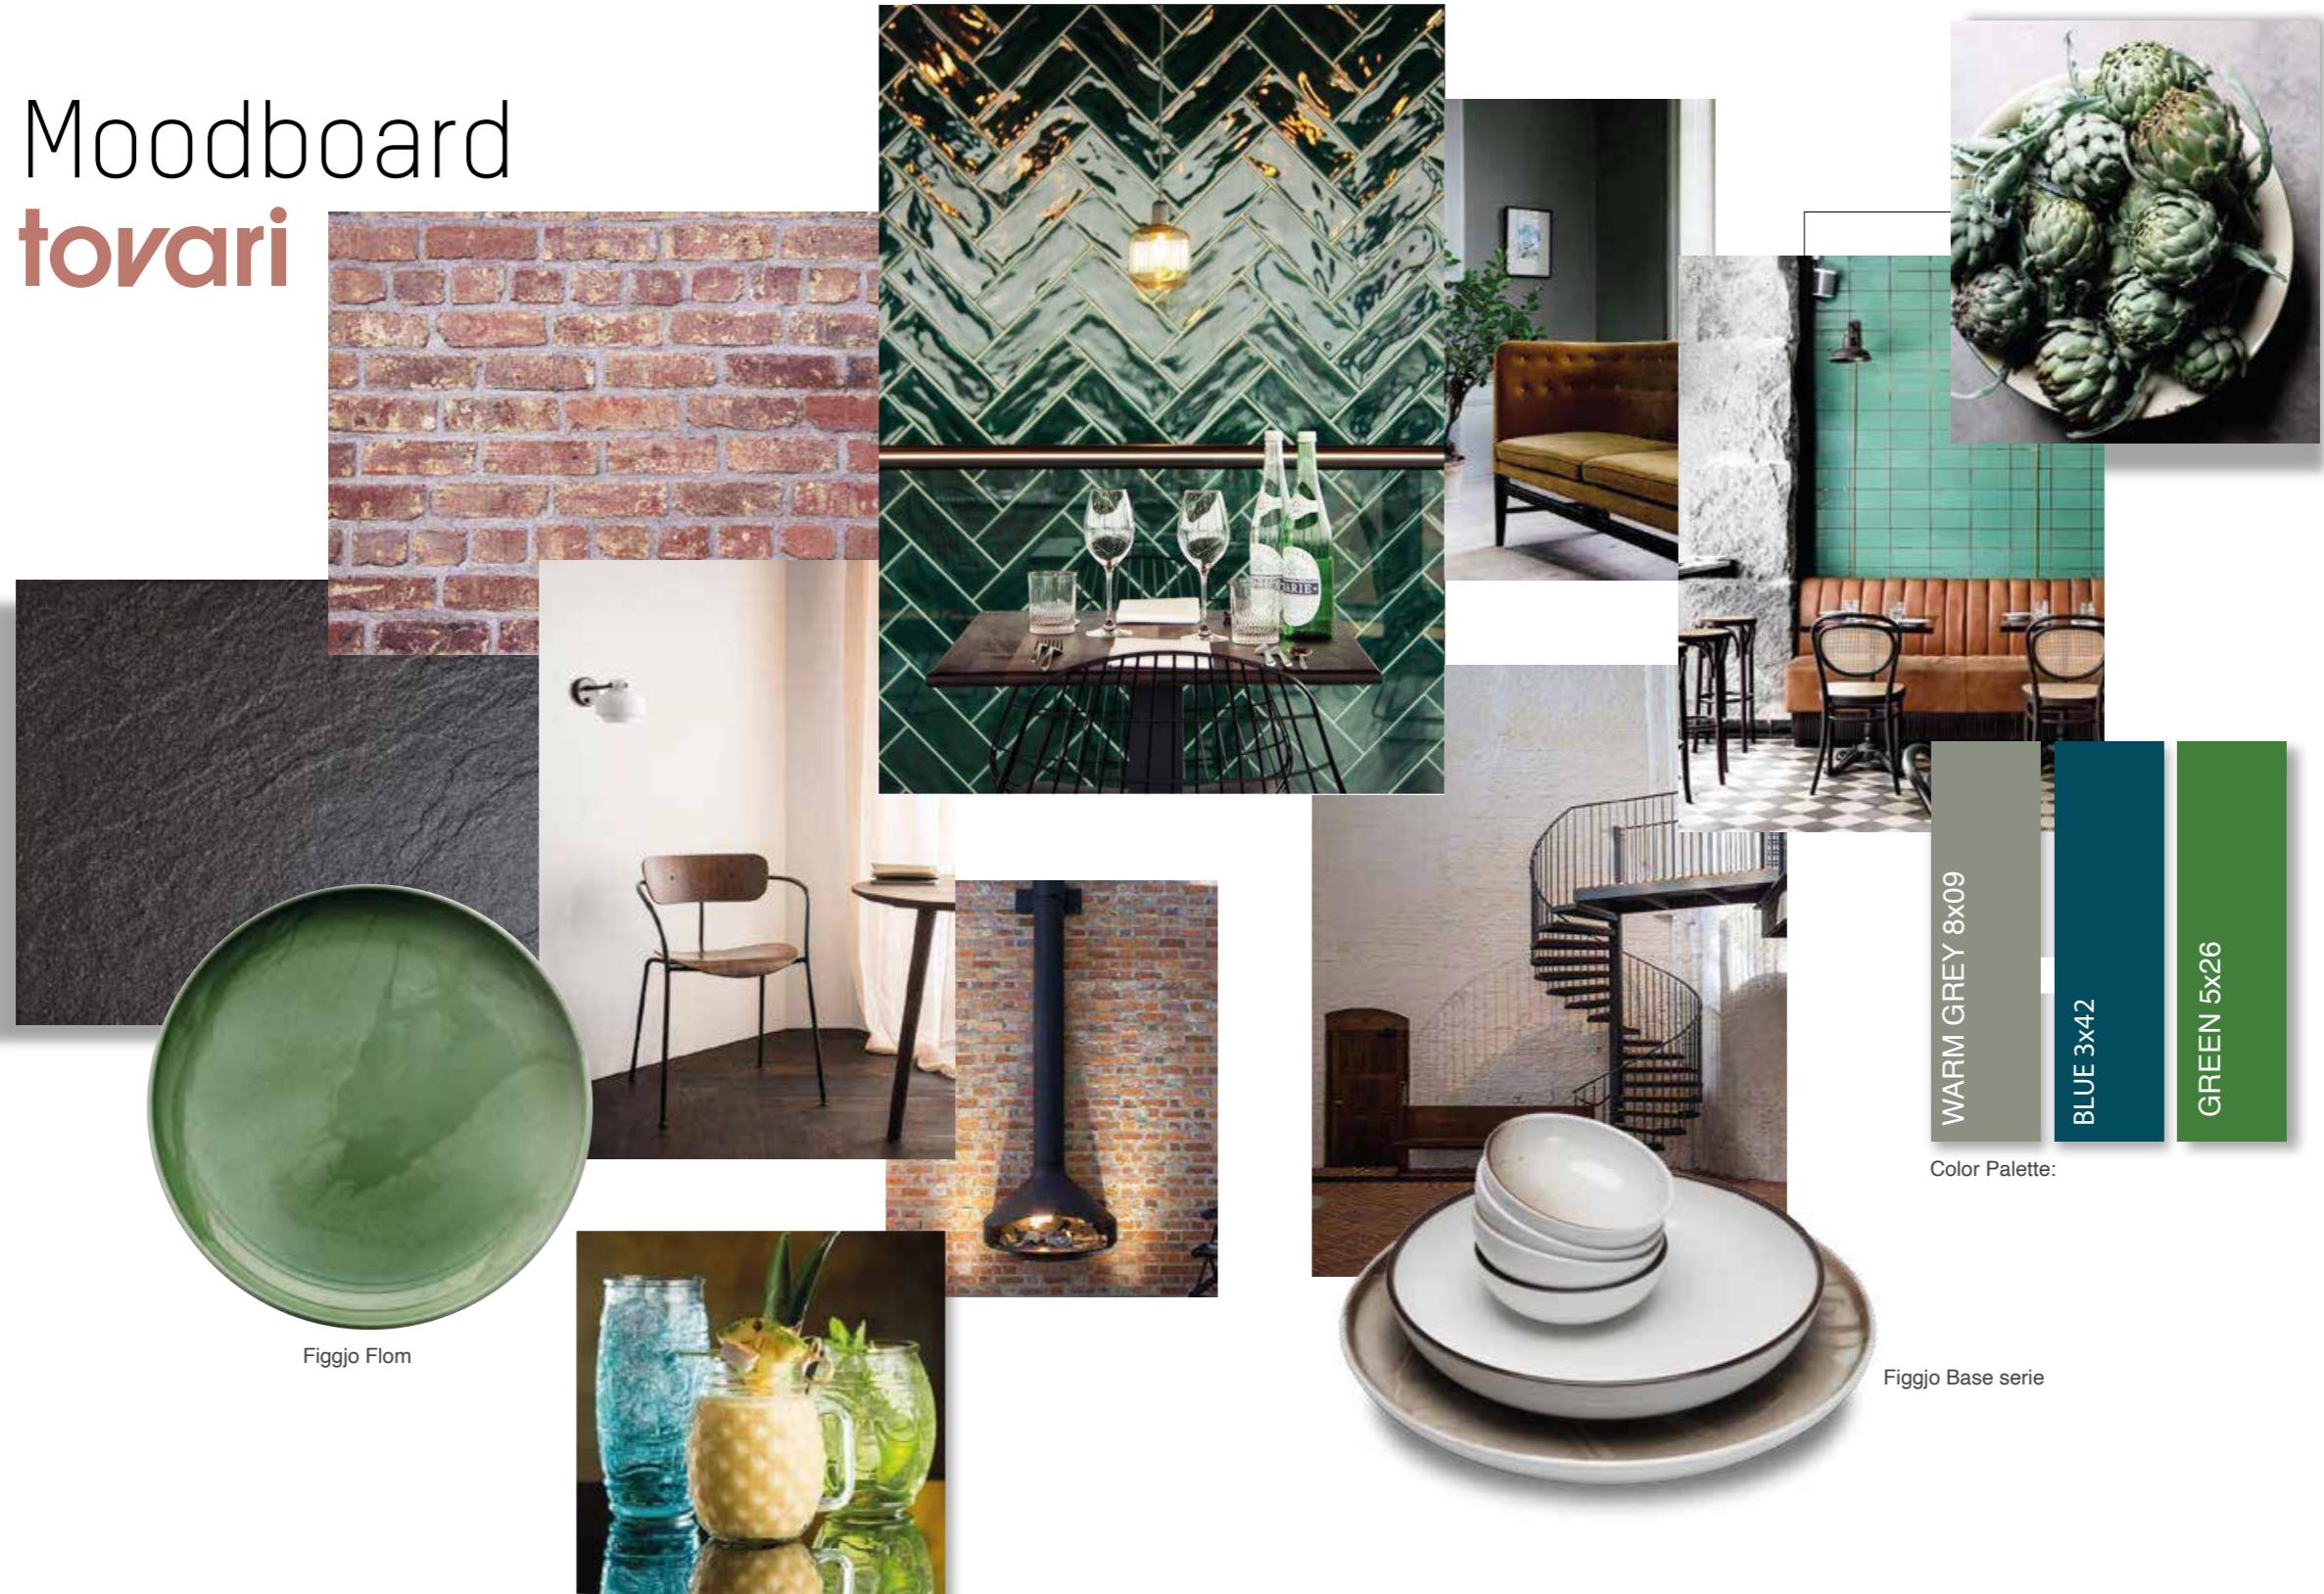

Finally

We submit the idea in the form of a PDF. We adjust the concept until you are satisfied - free of charge.

NOTE! IT IS ALSO POSSIBLE

Marchesi

The collection was born from an idea by the Maestro, combining design and function with a new element: each piece of cutlery has a specific use. The risotto spoon in order to taste, at last, the sauce as well. The spaghetti spoon and fork, a modern and fashionable couple. The tongs that allow to savor hors d'oeuvres and fried food without piercing them.

Matisse Vintage

Opacity, scratches and marks intentionally made on the surface of the cutlery with a Vintage finish give the effect of objects that have been used for a long time, of a large, warm and steamy kitchen filled with aromas, of the friendly gatherings of old good times and ancient flavours. They evoke images of traditional, simple environments with no intention to be modern.

Kyoto

Kyoto was created to bring to the table a total-design cutlery model. Its remarkably elegant and essential nature bestows to the mise en place a sophisticated style, even if very simple. The refined simmmetry created by the contrasting colours and the choice of utterly different materials, such as brushed steel and POM, result in a highest quality product, with a futuristic shape, highly light and functional.

CUTLERY & PLATES

Zorg goed voor uw bestek & borden

Take good care of your cutlery & plates

Was de PVD-artikelen zorgvuldig af voordat u ze voor het eerst gebruikt. Laat de vuile items niet te lang in contact met voedselresten en/of ondergedompeld samen in het waswater. Sommige stoffen in de voedingsstoffen zijn in feite schadelijk voor PVD en zou het oppervlak kunnen veranderen. Het is dus erg belangrijk om alle artikelen direct na gebruik af te wassen. Gebruik bij handwas warm water en een goed neutraal schoonmaakmiddel om ze af te wassen; later uitspoelen met overvloedig lauw water en droog alle artikelen zorgvuldig na het wassen om uiteindelijk te vermijden vorming van kalksteenvlekken in het water. Puimsteen, staalwol, spons of doek doordrenkt met schuurpoeder moet strikt worden uitgesloten. Gebruik in het geval van afwassen met een vaatwasser een afwasprogramma op een temperatuur niet hoger dan 60°C. Houdt messen

Wash up carefully the PVD items before their first use. Do not leave for a long time the dirty items in contact with alimentary residues and/or immersed all together in the washing water. Some substances contained in the aliments are in fact harmful for PVD and could alter its surface aspect. So it's very important to wash up all articles immediately after their use. In case of hand wash use hot water and a good neutral detergent to wash them up; later on rinse out with abundant tepid water and meticulously dry all articles after the washing to avoid eventually forming of stains of limestone contained in the water. Pumice, steel wool, sponge or cloth saturated with abrasive powder have to be strictly excluded. In case of wash with dishwasher use a washing program at temperature not higher than 60°C. Take knives separated from other cutlery

gescheiden van ander bestek (vorken en lepels) en ander roestvrijstalen keukengerei. Gebruik geen synthetische wasmiddelen op chloor en met fosfaten in% meer dan 10%, zuurstofbasis of soortgelijke wasmiddelen bleken. Verwijder en droog al het bestek zorgvuldig na het wassen met een zachte doek doek, zelfs als de vaatwasser een automatische droogcyclus heeft (dit is om het oppervlak van het bestek te verwijderen) kalksteenvlekken). Laat bestek niet in de vochtigheid van afwaswater staan, maar laat het drogen en leg het in een droge ruimte. U kunt bestekdroger-polijstmachines met maïskolfpoeder gebruiken. Gebruik geen keramiek of iets dergelijks en vermijd nauwgezet schurende vloeistoffen. Gebruik geen osmose-vaatwasser. Bij lichte verkleuring van de kleur of hardnekkige kalkvlekken, reinigen met een zachte doek en azijn.

(forks and spoons) and other stainless steel kitchenware. Do not use to wash any synthetic detergents at chlorine and with phosphates in % more than 10%, oxygen base or similar detergents bleaching. Remove and dry meticulously all cutlery after the washing with a soft cloth, even if the dishwasher has a cycle of automatic drying (this is to remove to surface of cutlery any limestone stains). Do not leave cutlery in the humidity of dishwater but dry and put them in a dry room. You could use cutlery dryer polisher machines with corncob powder. Do not use ceramics or similar and scrupulously avoid any abrasive liquid. Do not use osmosis dishwasher machine. In case of slight shading of color, or persistent limestone spots, clean with soft cloth and vinegar.

Baquette Vintage

Baguette is a classic shape that is versatile to both casual and fine dining. Comfort in the hand is a Robert Welch signature and the pebble smooth finish is soft to the grip. The thickness of the handle tapers towards the tip, keeping the weight centrally balanced.

Personalization

RONA's position among other glass manufacturers is unique also owing to an unusually large assortment of decorating techniques, enabling Rona to offer an incomparable range of personalisation options which enhance the perceived value of the glassware. Realizing the importance of personalization in the

hospitality industry, RONA can proudly offer a solution for practically every demand in this respect, from simple silk-printing to sophisticated acid etching or special decal sandblasting. RONA can execute even very limited series of decorated products, making this option accessible truly for any client.

Edition

Edition showcases all the best features of RONA's professional glassware and this classic design is suitable for a use in a multitude of settings and for a wide variety of occasions. This line offers typical glassware for any drink including a popular "Hurricane" glass for mixed drinks or two different glasses for sparkling wines – a prosecco glass and a real, serious champagne flute. Edition is the right choice for properties which offer a wide variety of services and need to have the right, reliable glass for any occasion.

Rona Glass

Glass & Inspiration

RONA has a strong export position, qualified personnel and the most modern technologies. The glassworks in Lednické Rovné is one of the world leaders in the processing of lead-free beverage glass known as crystalline.

BRAND Rona Glass
MATERIAL Crystal Glass

COLLECTION Quality & Design

Laser treated rims

Resistance to chipping increased by 50% against standard rim finishing. Higher resistance against impact, less breakage.

Brilliance and clarity

The high quality of crystalline guarantees permanent brilliance and clarity. Neutral shade of the glass mirrors the original colour of the beverage. Timeless clear transparency is guaranteed by using the highest quality purifiers such as erbium.

Dishwasher safe

Guaranteed permanent brilliance and clear after 1,000 washing cycles according to EU standard EN 12875. Long term tests provided resistance to common detergents. Suitable for washing in commonly used plastic racks. Flat footplates do not retain water after dishwashing. Thermo-shock resistance for temperature difference of 65°C.

Functional and elegant forms

Professional design meets the highest criteria of the international hospitality industry. Elegant and functional designs offer the right glass for every occasion and purpose. Glassware designed to fit most widely used dishwashing racks.

Progressive production technology - pulled stem

Upgraded resistance during dishwashing and manual drying. Seamless stem makes the contact with glass pleasing. Joint-less transition from cup to stem provides extreme resistance to breakage. The glass is resilient, although remains flexible. Extremely hard surface proven according to the Vickers' method.

Rona Glass

Invitation

Suite Invitation is designed to enhance the bouquet and body of wines served on more official occasions. Elegant, tulip-shaped cups make any well laid table look spectacular. This classically shaped wine glass collection is completed by a selection of glasses designed for specific beverages such as a brandy glass, the more and more popular margarita or a beautifully shaped martini glass.

Rona Glass

Linea Umana

For the first time a line of glasses designed by somebody who uses them first-hand and expects a perfect performance. Maurizio Filippi - Best Italian Sommelier AIS 2016 - used all his expertise as a sommelier and restaurateur to create the soft and "human" lines of these wine glasses, without neglecting to take into account practical aspects that are important for potential buyers. Only six wine glasses and two water glasses to meet the needs of all professionals in the sector and of all wines produced in the world.

Martina

Martina's soft design makes this line a feminine counterpart to the Image suite. Born in cooperation with the Spanish wine industry Martina's shape is a super-structure, inspired by drawing the best features from the most popular, well-established shape of Edition and, on the other hand, the provoking design of the Image suite. Martina seems for many to be the winning combination of both design approaches, offering an elegant, presumptuous and yet timeless profile which bridges the niche between traditionally oriented and modern design.

Etna

The new Etna collection is inspired by the power of the eruption of the Sicilian volcano. The perfect imperfection of nature is engraved on the glasses and goblets: the light is reflected on the carvings and is multiplied on different levels enhancing the exceptional transparency of the Eco- Crystal.

Timeless

Unlike fashion, elegance goes beyond time ... and knows how to get noticed! A line with a modern and unmistakable style, chosen by the most important producers of cocktails and spirits for their advertisements, you will also find it on the set of many successful films and above all on the tables of restaurants all over the world.

Polycarbonate

Plastic Drinkware provides a great alternative to Glassware. Drink related violence is an ever present area of concern for Police Forces and local licensing authorities; Tovari has focused on providing a safer option, without any compromise on style. The American range showcases classic styling in a Polycarbonate finish. American is available in eight key sizes, including a shot, making it a comprehensive tumbler offering. Our American collection boasts the look of stunning glassware with all of the practicality of Polycarbonate - stain resistant, break resistant and chip resistant.

Steelite Craft

Craft is inspired by hand-crafted, simple country wares made by generations of potters over hundreds of years. The range embodies the beauty of rich, lustrous glazes applied by hand, and celebrates chance effects and reactions which occur naturally in the kiln. The gem-like glazes married to simple forms and shapes produce a unique and individual appearance, giving Craft a rustic "joie de vivre."

Steelite International

Steelite Craft

Craft is inspired by hand-crafted, simple country wares made by generations of potters over hundreds of years. The range embodies the beauty of rich, lustrous glazes applied by hand, and celebrates chance effects and reactions which occur naturally in the kiln. The gem-like glazes married to simple forms and shapes produce a unique and individual appearance, giving Craft a rustic "joie de vivre."

Figgjo Norway

Figgjo buffet

We are a market-leading brand for larger-sized products, offering a host of design, flexibility, and decor options. Decor is often only available for smaller items, which is not the case with Figgjo products. Here, larger displays can reflect individual design preferences in the same unique way. That, combined with the ability to mix and match, lets you present your food the way you want.

Skyline revolution

A modular display system composed of different elements to build a stunning Skyline and then stop to admire the view. Upper and lower parts to increase or decrease the size and a visual perception of each composition. Boxes that can be arranged at different levels or tilted, baskets that also serve as pedestals, benches as bridges and even a two-story structure with corresponding trays that stands as the skyscrapers of the collection.
