# Your inspiration in bar presentation

At Tovari, everything revolves around the art of presentation. The bar is more than a place where drinks are served; it is a stage where experience, craftsmanship and hospitality come together. Our bar collection is designed for professionals who understand that every detail matters – from the shape of the glass to the character of the tableware it's served on.

With a focus on timeless design and premium materials, Tovari offers a collection that effortlessly unites aesthetics and functionality. Each item is carefully crafted to withstand intensive use without compromising on elegance. Subtle lines, refined proportions and a balanced finish create a calm, luxurious look that elevates any bar setting.

Tovari supports bartenders, restaurateurs and hoteliers in creating a consistent and distinctive presentation. Whether it's a classic cocktail, a modern signature serve or a refined non-alcoholic creation – our products are designed to showcase every drink at its best and deepen the guest experience.

This catalogue presents a thoughtfully curated selection of bar products created to move with contemporary hospitality concepts. From intimate cocktail bars to high-end hotels, Tovari provides a stylish foundation for moments that linger.

# Sustainable? Of course!

We live in a world with limited resources. By selecting suppliers who care for the environment, we can reduce our carbon footprint. This way we can reduce our impact by choosing products that are functional, timeless, and, foremost, durable.

The circular economy is based on the principles of reducing waste and pollution, keeping products and materials in use, and regenerating natural systems. The idea of the circular economy is to create no waste. There should be no end of life of anything.

Naturally, we pursue these principles by carefully considering every step of the process and taking end-to-end responsibility for our products.

# Novelties

Innovation. Craftsmanship. Perfection in Glass.  
**IN COLLABORATION WITH ERIC LORINCZ**

RONA is a rare example of a glassworks where the machine made production is accompanied by the handmade section. This fact gives RONA a unique opportunity to complete the professional glass assortment with hollowware not only produced by machine, but also with the more resistant handmade decanters and pitchers coming from its own production.

### Champagne

As the profile of mixology and bar culture climbs ever higher, glassware specifically designed for bars is becoming increasingly more important in the RONA 2SERVE hospitality glass range. We believe that this specific environment requires its own distinctive set of products that will allow this trend to develop to it's fullest potential. The RONA 2SERVE range for bars and mixologists includes a glass specifically developed for single malt whiskey, champagne glasses, a mixer and a set of Cumberland tumblers decorated with a polished cut (which are poorly imitated by the cheap pressed products we still, sadly, come across so often in this exceptional setting).

# Your inspiration in bar presentation

The Barista Collection by Tovari is crafted for moments that deserve attention. From the first espresso of the day to the perfect afternoon cappuccino, and the conversation that's allowed to linger a little longer. Every piece in this collection embodies calm, balance and refinement. With soft contours, a comfortable weight and a subtle, elegant finish, each cup rests naturally in the hand. The shapes are intentional: designed to enhance aromas, preserve crema and support the barista ritual — both at home and in professional settings.
