'A family business for three generations in tableware presentation.'

Warehouse in Arnhem in 1976.

Sustainable? Of course!

We live in a world with limited resources. By selecting suppliers who care for the environment, we can reduce our carbon footprint. This way we can reduce our impact by choosing products that are functional, timeless, and, foremost, durable. The circular economy is based on the principles of reducing waste and pollution, keeping products and materials in use, and regenerating natural systems. The idea of the circular economy is to create no waste. There should be no end of life of anything. Naturally, we pursue these principles by carefully considering every step of the process and taking end-to-end responsibility for our products.

Welcome to a world of refinement, craftsmanship, and culinary imagination.

We are proud to present the Chefs' Collection 2025. A carefully curated selection of iconic tabletop brands, each representing the very best in fine dining design and innovation.

From the bold, handmade porcelain of Royale Italy to the timeless elegance of Vista Alegre. From the playful sophistication of Cookplay to the British precision of Robert Welch and the trusted performance of Steelite. Each brand brings its own unique story to the table. A story of beauty, craftsmanship and experience.

These are not just products, they are tools of expression for chefs, sommeliers and hospitality professionals who strive for excellence in presentation. Every piece is crafted to elevate a dish into an unforgettable moment.

Let yourself be inspired by shapes, textures, and concepts that surprise, challenge, enchant and discover how tableware becomes a true art form.

APARTU - stoneware - handle with care

Apartu Chamotte

Tableware that speaks through touch, shaped by perfect imperfections. The table shouldn't compete with the meal. It should simply hold the atmosphere. Good hospitality is found in quiet details — in objects that frame the dish, the ritual, the moment.

Apartu tableware balances tactility and restraint. Raw materiality meets refined form.

Pomax - *porcelain*

Kojin

Koen Van Troost is a Belgian designer with Dutch roots, shaped by international experience and a background in fashion, fine arts, and luxury accessory design. He leads the Pomax design team, strengthening our creative direction. His tableware collection Kojin, named after the Japanese 'Kami', the spirit of fire, kitchen and transformation, captures a quiet strength and poetic simplicity. Crafted in pure white porcelain, each piece balances rawness and refinement, with a matte outer skin and a glossy, light-catching interior. A delicate fracture line flows through the design, echoing the feminine form in soft, curved silhouettes.

Serax Silhouette - *porcelain*

Silhouette by Sergio Herman

Sergio draws on thirty years of experience, ranging from fine dining to casual dining, for this collection, with a nod to the porcelain plates that he used in his restaurant at the start of his career. The contours are inspired by the timeless beauty of natural phenomena, such as clouds and flower petals, and nature's perfect imperfections. These influences manifest themselves in the angular-round shapes of the plates and the subtle irregularities of the oval variants.

Serax Inku - *porcelain*

Inku by Sergio Herman

The Sergio Herman collections for Serax draw on the diverse local and international influences that have shaped his career as a world-class chef, restaurateur and designer of spaces and objects. Herman is deeply connected to the province of Zeeland, where he began his career at the family-owned restaurant Oud Sluis in Sluis – a small town near the Belgian-Dutch border – transforming it into a culinary destination. Under his creative direction, Oud Sluis achieved three Michelin stars and was named one of The World's 50 Best Restaurants for eight years.

VIVO

Definitely a "rebel" aesthetic that wants to challenge the inspiration of **haute cuisine** and completely overturn the rules of "mise en place", often tied to standards and stereotypes. Rude and tough, sometimes even grumpy, Vivo collection is characterized by sharp angles; with incredible care every single edge is cut and hand finished by a **master craftsmen**.

An iconic and distinctive design that sets them apart from other porcelains and the rest of their production. Protagonists of real and **pure Italian** style.

VITA

To bring your tables to life and make the most of every dish, it's essential to choose a line that combines both simplicity and character, without sacrificing the perception of quality. The new Vita line, part of the Excellence range, fulfils this role perfectly, thanks to the biscuit porcelain on the edges of the plates, which gives them a matt tone in contrast to the glazed surface in the center, which is smooth and shiny. This contrast is accentuated by the relief motifs in the biscuit, reminiscent of tree bark and giving a very organic texture to each piece, which, in their different dimensions and functionalities, harmonize with each other and with the most exquisite of dishes.

Vista Alegre - porcelain

Infinita is a small collection of unusually shaped porcelain servers for sensitive and creative catering. Ideal for presenting premium, beautifully styled contemporary food concepts.

Softly stretched surfaces, without visible edges, with no start or finish, characterize the formal statement the servers are making. Infinita is effectively an endlessly stretched, almost spherical sculpture.

The traditional division in porcelain tableware of edge and eating surface is completely done away with here: for me Infinita is all about a sculptural, voluminous approach as opposed to a graphic suggestion; this results in individual possibilities of showcasing food in a unique way.

The charm of the objects stems from the contrast between the perfectly smooth and reflected surface, stretched over the inner core, and the exquisite dishes and sensitive food styling of an ambitious chef.

Sumisura

Made in Italy - *porcelain hand-crafted*

The Diva collection is the real hidden treasure of the Royale® production dedicated to the luxury section. As detached and fascinating as a star on stage, Diva has a brilliant texture, where the rough biscuit effect and the magnificence of crystalline join and enchant immediately. The items meet each other like the pearls of an identical necklace, offering Chef's extraordinary blank canvases from which to choose the most suitable for their personal inspiration. The shapes are delicate and light, but also confident and voluptuous; sweetness and passion, modesty and pride mingle with sinuous curves.

Like in architecture, but also in nature, it is only the union of different elements to guarantee the final balance. This harmony exists also in the mis-en-place and this collection, in particular, wants to offer to chefs original and stylish solutions to complete the service. Some items are inspired by natural shapes or by objects of our daily life, and always give a touch of novelty to the table; some other items combine a modern and chic design to the functionality during the usage, as you can find for example in the slender lines of the creamers, glazed internally, but mat outside. Items of **Elementi** collection, taken individually or as parts of a total set, are born to amuse and strike always a chord with their audacious immediacy.

The vision of the line can be exemplified in the items **Azioni** whose idea come from the action of a child that after dinner "licks the plate" spontaneously.

These actions instinctively bring us back to the childish dimension of the meal, highlighting its most playful aspect, arousing in the guests surprise and curiosity, pointing out the meaning behind these unexpected, spontaneous and witty gestures.

Gualtiero Marchesi

The collection was born from an idea by the Maestro, combining design and function with a new element: each piece of cutlery has a specific use. The risotto spoon in order to taste, at last, the sauce as well. The spaghetti spoon and fork, a modern and fashionable couple. The tongs that allow to savor hors d'oeuvres and fried food without piercing them.

Broggi 1818 Italy - 18/10 stainless steel

Duecento, design Osvaldo Ferraris

An exclusive cutlery model created to celebrate the 200th anniversary of Broggi 1818, Duecento expresses elegance and balance, quality and function, tradition and innovation. Duecento stands out thanks to accurate proportions of shape and weight that give an immediate sensation of richness, balance and pleasant ergonomics. The profiles, with their classical inspiration, as a tribute to tradition, are combined with new handles, where thicknesses and widths alternate with narrower and thinner parts. Duecento is an original collection, because originality means treasuring the past and creating a new way of describing it.

Adam Simha Steak Knives - 18/10 stainless steel

Created by designer Adam Simha, these are the knives you will always reach for, feel compelled to care for, and never want to put down. Adam's original knife designs are based on over 20 years of knife making, his own professional kitchen experience, and the custom knives he has built for working chefs.

He provides service for these knives exclusively, giving him first hand feedback on every detail from material to blade shape to edge geometry, to hardness, to hardware. "The knives I began making and enjoyed the most turned out to be knives for cooking, which brought me full circle back to the sphere of culinary arts."

Rona 2 Serve - *Crystal glass Linea Umana*

Handmade by machine

For the first time a line of glasses designed by somebody who uses them first-hand and expects a perfect performance. **Maurizio Filippi – Best Italian Sommelier AIS 2016** – used all his expertise as a sommelier and restaurateur to create the soft and “human” lines of these wine glasses, without neglecting to take into account practical aspects that are important for potential buyers. Only six wine glasses and two water glasses to meet the needs of all professionals in the sector and of all wines produced in the world.

Wine Glasses

Rona 2 Serve - *Crystal glass Santorini*

Hand-crafted

Santorini is a mystical island that many say is the remains of the legendary Atlantis. It is one of the **islands of the Cyclades archipelago**, where, according to legend, the goddess Artemis and her brother Apollo were born. Hence their name: the Greek Cyclades, translated as "islands in a circle". It would be difficult to find a more suitable name for this delicate **hand-shaped suite**. The lower part of the stemmed glasses takes the shape of a volcanic caldera so that drinks, and wine in particular, can unlock their full potential
